INTRODUCTION

This report details UW-Madison study abroad participation for the Academic Year 2016-17 (Fall '16 through Summer '17), as reported in the Institute of International Education's Open Doors 2016-17 institutional data report regarding international educational exchange (<http://opendoors.iienetwork.org/>). Tables and charts include U.S. students (citizens and permanent residents) enrolled for a degree at UW-Madison who received academic credit for their study abroad experience.

In this report, an "Administrative Unit" is the UW-Madison department, school, college, or other unit organizing the posting for coursework completed while abroad. Included in this report are the following administrative units: International Academic Programs (IAP), School of Business, College of Engineering, College of Agriculture and Life Sciences, History Department and Law School.

Students who did not study through an "Administrative Unit" either went on a program that was not sponsored by UW-Madison (and received transfer credit through the Office of Undergraduate Admissions) or received academic credit through their departments for research, internships, or classes abroad.
